

The background is a dark, industrial scene. A robotic arm is visible on the left, welding a large metal structure. Sparks are being generated from the welding point. The overall tone is industrial and high-tech.

TROLLEY IN STAINLESS STEEL

OA 4100

Trolley in stainless steel

This stainless trolley is developed for the transport of packages in the food industry where severe hygienic requirements must be met for surfaces that come into direct contact with the goods being handled, e.g. meat or fish. The trolley can also be used in the pharmaceutical industry.

PRODUCT DETAILS

- Load capacity: 250 kg
- Size: 780 x 1025 mm
- Wheels: Two nylon wheels with brake
- Made in Denmark

HYGIENE

- Stainless steel – the risk of bacterial attacks is minimised
- Developed for environments with severe hygienic requirements
- Easy to clean
- Few hiding places for bacteria

ERGONOMICS

- The ergonomically handles makes it easy to manoeuvre
- Designed with user safety and ergonomic working conditions in focus
